

*Airtex Engine Management*

## **ENVIRONMENTAL POLICY**

Airtex Engine Management – an original equipment quality parts supplier to the automotive industry and the aftermarket – will conduct its business, manufacturing and packaging operations in a safe and environmentally responsible manner. To achieve this goal we will:

- Promote natural resource conservation by identifying and using materials and processes that promote the prevention of pollution.
- Comply with applicable legal requirements and with other requirements to which the organization subscribes which relate to its environmental aspects.
- Establish specific environmental objectives and targets for the corporation as well as measure, evaluate and audit our environmental management program to ensure proper performance and continual improvement.
- Advance the education, training and awareness of our employees in environmental matters; and communicate to all persons working for or on behalf of the organization our environmental management program.

Airtex Engine Management embraces its role in protecting the environment and the communities in which we operate; and seeks the active participation of its employees, customers and suppliers to ensure achievement of the objectives of our Environmental Management Program.
